January 2012

Dear Boaters,

Over the past few weeks we have received several inquiries as to the status of Wye Heritage Marina and we feel it appropriate to inform you of the latest developments.

Mr. Zecha purchased Wye Heritage Marina in 1993 from the Royal Bank. Many improvements have been made to the marina during this period. In order to realize the true potential of the marina, Mr. Zecha has spent quite some time searching for the right partner. Many of you will be familiar with Parkbridge Lifestyle Communities Inc., owners of Bayport Yachting Center here in Midland, Bay Moorings Marina and Beacon Bay Marina in Penetanguishene, Bridge Port Marina in Orillia and Goreski's Landing in Port Perry. Mr. Zecha and Parkbridge have reached an agreement in principal whereby Parkbridge will take ownership of the marina operation within the next few weeks.

The new ownership will add a renewed commitment to customer service, and the ability to provide new and improved facilities for our valued customers. As general manager of Wye Heritage I am excited about the synergies brought to the table through existing marina operational expertise and the accelerated growth potential in both facility and customer service. The purchase by Parkbridge is a very positive step in our quest to be the finest marine facility on Georgian Bay.

We value your business and continued support. I am looking forward to seeing you at the Toronto Boat Show , where we will be gearing up for what we expect to be a banner 2012 boating season.

Yours truly,

Jay

Jay R. Forrest
General Manager
